TIPSTER FINS 9"

ASSORTED DESIGNS / limited edition
Fiberglass / TintedResin / Fabric

A beautiful Longboard fin by Bill Stewart, hand made, no two alike.
Not only will you look good perched on the nose of your Longboard, with the "one of a kind" logging fin it will add to your fun in the sun.
This fin was specifically designed for the Stewart Tipster Model but the boys at Stewart have a feeling surfers are going to collect them.
You will never see these again once they are gone.
