

Made since 1936, the patented and trademarked, **CHURCHILL MAKAPUU®** floating fins, have become standard equipment in performance bodyboarding and are also the original swimfin.

Each natural rubber fin is individually inspected for quality. The **MAKAPUU®** fin was created to resemble a dolphin tail, which will give you the most thrust and performance out of any fin on the market. The **MAKAPUU®** fin is made of 100% natural gum rubber and they float!
