

SOFT SURFBOARDS THAT REALLY SURF!

SURF RANGE

We build a triple layered Epoxy/EPS surfboard with 3 x T-stringers and integrated fin boxes then wrap it in soft foam. The result is a safe, great surfing, super durable board.

TRIPLE STRINGER SYSTEM:

2 x T-STRINGER DECK

1 x T-STRINGER BASE

- FOAM DECK AND RAILS
- 2 x EPOXY FIBERGLASS
- NOSE AND TAIL BUMPERS
- EPS CORE
- EPOXY FIBERGLASS
- PADDED SLICK BASE
- MULTIBOX SYSTEM

The GO Softboard Surf range is a surf oriented range in shape and look.

Unlike most softboards, these are made like real surfboards. Underneath the soft foam exterior is a pedigree surfboard, with the shape, foil, rails and bottom contours of a high performing board, all built in a technology that feels responsive.

The GO Softboard Surf Wide range mixes a surf look with wide, stable shapes.

Combining the oversized shapes from our Surf School Wide range and the responsive construction and surf style look of the surf range, these offer the best of both; authentic looks and easy learning.
