RED	80a		
WHITE	80a		

MZAMWL7002

LINK 70

Height 70 mm
Width 44.5 mm
Contact Patch 38.1 mm

Core Large
Bearing Seat Off set
Roll Surface Sanded

Durometers 78a

DOWNHILL 
SLIDE 
FREERIDE 
PARK 
CRUISING 

The link is very similar to the motion, but with a larger, offset core. Links are at their best when going fast. They have excellent roll speed as well as anice, controllable drift

RED 78a

FREERIDE 
PARK 
CRUISING 

The express is a big, go fast wheel, with a smooth drift. At 77mm, it is the largest wheel in our lineup and works great for steamrolling down mountain runs

ORANGE 78a
PURPLE 78a

MZAMWL6302

RETRO 63

Height 63 mm
Width 45 mm
Contact Patch 42 mm

Core Standard
Bearing Seat Off set
Roll Surface Slick

Durometers 78a

DOWNHILL 
SLIDE 
FREERIDE 
PARK 
CRUISING 

The retro is the pefect addition to any cruiser or ditch setup. It is grippy when need be, and the small height makes for great acceleration.
