

## TAKE HOFF 2K21 : BODYBOARD PRODUCTS

YOU CAN'T STOP SPROGRESS

**#RECOGNIZED #PLEASURE #SERIOUS #PROGRESS #HERITAGE  
#PERFORMANCE #CLEANDESIGN**

Founded in the year 2000, Sniper is a bodyboard brand focused on quality and performance to serve both the amateur and professional rider.

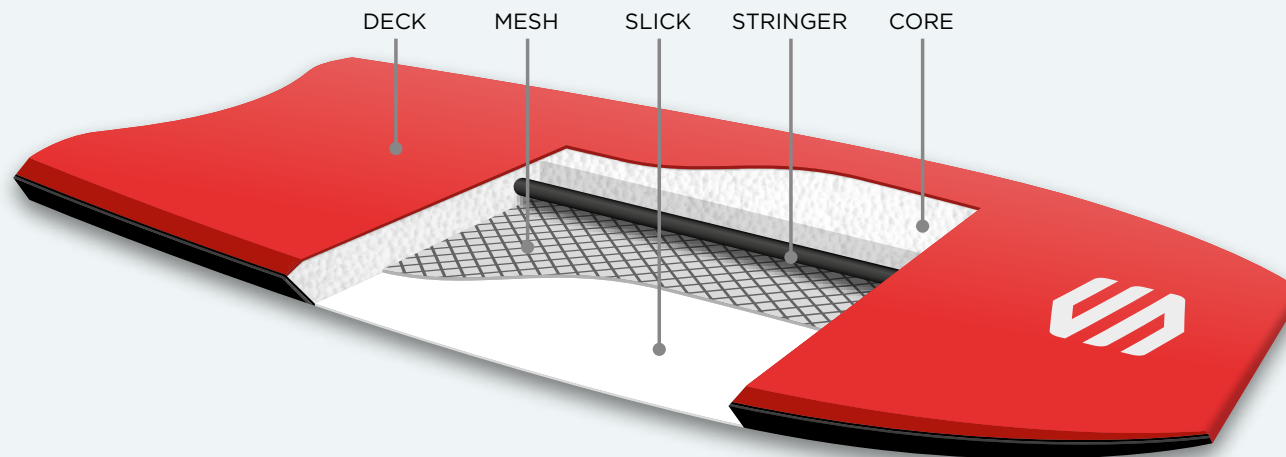

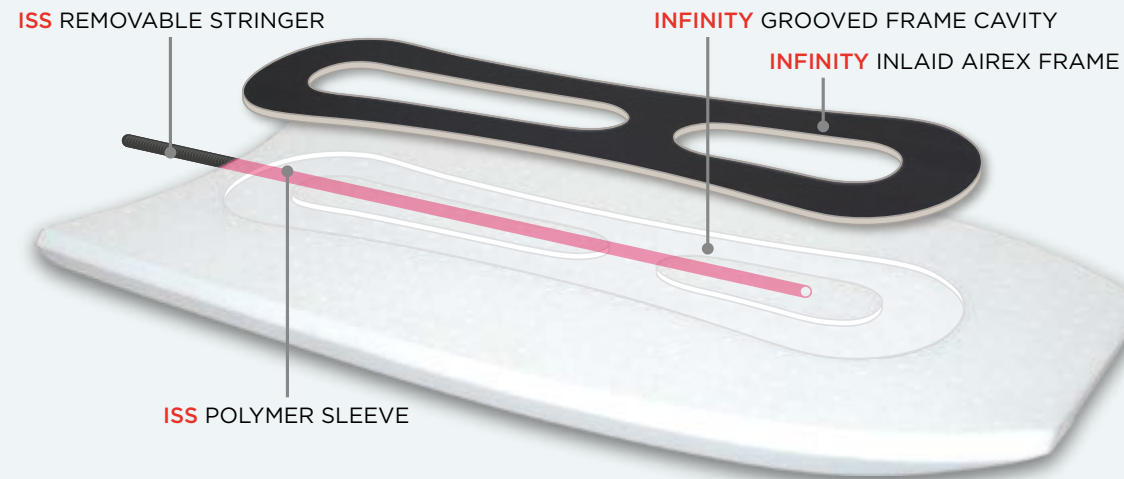

Working alongside various world champions within our team of sponsored athletes we are way ahead of the game with regards to creativity and progression and we enjoy to watch our athletes take it to the next level whilst riding our boards in some of the most danger-ous surfing conditions in the world.

 **@sniperbodyboards  
#youcantstopprogress**

**SNIPER**

## SLICK FEATURES

- **CHANNELS**  
Increased Speed and Better Rail Control.
- **NXT CHANNELS**  
Parallel Channels are the latest innovation in bodyboarding. Closer to the rail, and deeply grooved, they're the ultimate channels.
- **QUAD CHANNELS**  
The ultimate channel feature, creates a hull effect and stick your board to the barrel. Only available on limited editions... STAY TUNED !
- **NOSE BULBS**  
Ergonomic Finger Tips Grip.

## RAIL FEATURES

- **50/50** - Optimal Board Control.
- **45/55** - The alternate choice
- **60/40** - Most Forgiving for Maneuvers.
- **CONCAVE**  
The rear rail is channelled to offer extra drive.
- **DIAMOND**  
A DropKnee special, the upper rail is patched to offer extra lentgh stiffness.

## DECK FEATURES

- **CONTOUR DECK**  
Ergonomic Hollowed Grip and Gutters. Exist in various shapes and designs.
- **WRAPPED CRESCENT TAIL**  
All Around & Comfort.
- **PATCHED CRESCENT TAIL**  
Stiffer Torsion Abilities.

## CORES

- EPS** **EPS CORE** / 100% waterproof
  - Polystyrene
  - Ultra-light foam
- PE** **PE CORE**
  - Polyethylene
  - 2.3 lb density foam
  - Soft and easy-to-use.
- XPE** **XPE CORE**
  - Extruded Polyethylene
  - 2.6 lb density foam
  - Added Flex
  - Cold water.
- NRG** **NRG CORE** / 100% waterproof
  - Expanded Polypropylene
  - 1.3lb density foam.
  - Improved resilience
  - Cold to warm waters
- PP** **PP CORE** / 100% waterproof
  - Expanded Polypropylene
  - 1.9lb density foam.
  - Extra stiffness
  - Warm to tropical waters

## DECKS

- PRO CELL WAVECUSHION**
  - Open cell PE deck skin for enhanced traction.
  - 8 lb non crosslink polyethylene.
- MICRO CELL WAVEDECK**
  - Closed cell PE deck skin for added comfort.
  - Irradiated crosslink polyethylene.

## SLICKS

- SURLYN™**  
Surlyn™ slick exhibits rubber-like properties and superior projection. It is designed so as that it has minimal impact on the flex properties of the core.
- HD SLICK SKIN**  
Hard wearing, high density slick skin for stiffness and speed. A durable slick, made of Hi Density PE.

## STRINGERS

- ISS INTERCHANGEABLE STRINGER SYSTEM**  
**The future of flex is here**  
Surf conditions change day in, day out. Water temps rise and fall. Imagine if you could change the flex of yourboard to suit the conditions. With ISS interchangeable stringer technology, flex customization is now a reality. ISS enables you to fine tune the flex of your board via a range of precision calibrated ISS stringers.  
**Just turn the key.**
  - **Stiff Flex+** - 60% Carbon 40% Fiberglass Spiral
  - **Carbon Fibre** - 100% 3K Carbon Fibre
  - **Mid Flex** - 20% Carbon 80% Fiberglass Spiral
  - **Soft Flex** - 20% FS 80% Directional Fibreglass.
- NXT STRINGER** / 16mm Ø
  - Epoxy Fiberglass Tube
  - Woven bi-axial fiberglass
  - Stiffness and durability.
  - Enhances the board's ability to project down the line.
- STRINGER** / 16mm Ø
  - Resin Extruded Tube
  - Unidirectional fiberglass
  - Adds Longitudinal strenght and offers more control.

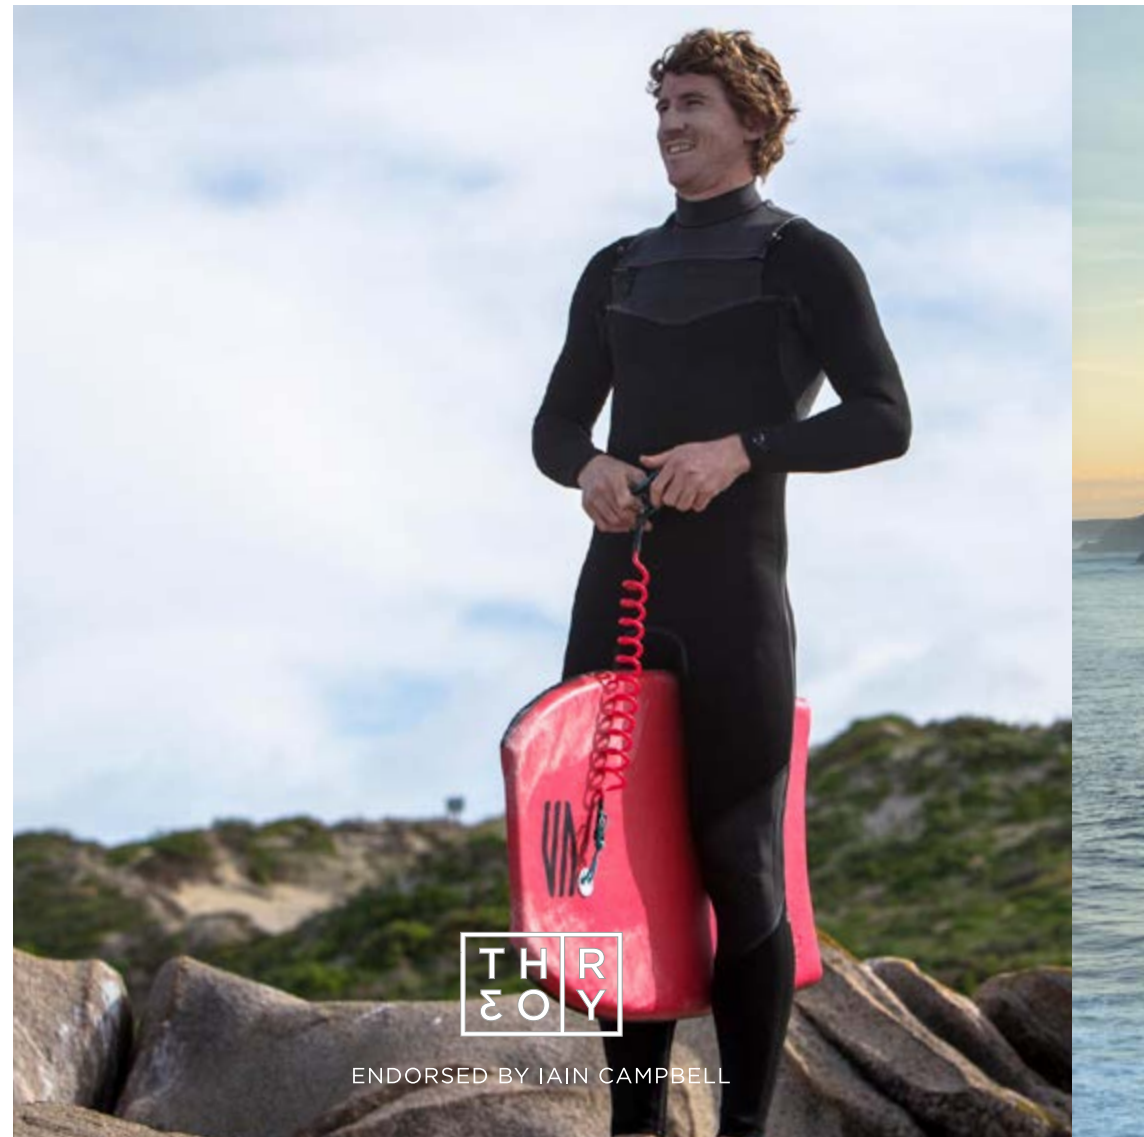

## INSERTS

- INFINITY AIREX FRAME INSERT**  
**A revolution in bodyboard**  
This technology has been tested and approved by Alex and Amaury during the world tour, leading Amaury to his second world title and Alex to the APB Top5.
  - It makes the boards stiffer and slightly heavier, increasing speed, projection and control.
  - The Airex frame rigidifies the structure and gives it more inertia, acting like a spring on aerial tricks.
  - Added control during bottom-turns allows to ride longer and deeper tubes.
  - A perfectly balanced torsion effect allows fast and perfect rail to rail transition.**With this new system, the possibilities are infinite. Try it, and get addicted.**
- MESH**  
A PVC grid placed between the core and the slick that optimizes spring and enhances responsiveness
