

R E N T A L

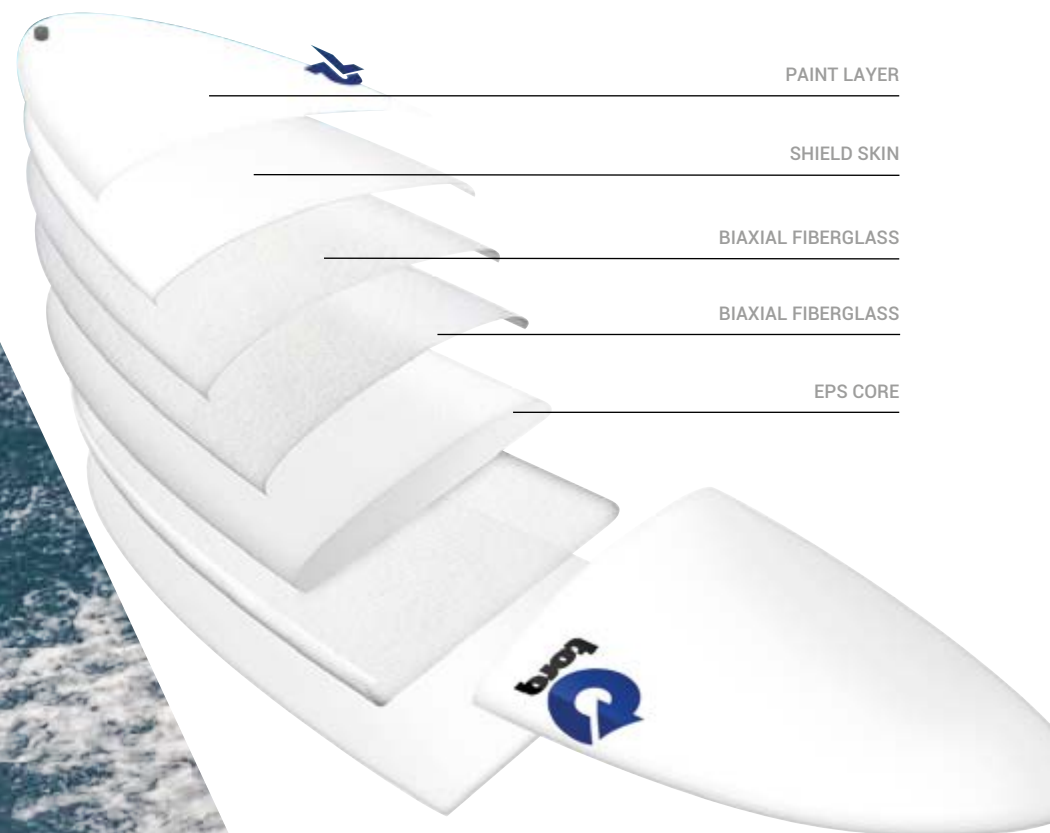

The torq Rental board is the product of feedback from around the world. Surf hire outlets love our Plain white TET model for the durability even under frequent heavy usage, but found it hard to tell the different sizes apart at first glance or in the rack.

We took the Plain TET and made a few artwork tweaks - large colour coded logos and size logos on the deck and base which wrap around the rail and can be seen even when the board is in the rack.

Underneath the updated artwork is the exact same super durable construction and best selling shapes of the TET boards.

RENTAL BOARDS offers maximum Durability and Affordability.

MODFISH

Our modern fish combines the best in small board maneuverability and big board stability. The wide template ensures a stable, easy planing platform for paddling, catching waves and easy progression.

The full laminated core ensures a rigid, highly durable board which will out last most other surf boards.
