X-LITE CONSTRUCTION

X-Lite is a brand new Epoxy technology developed specifically for performance boards. This is lighter, stronger and more Eco than a traditional PU/Polyester board. This new innovative technology is used exclusively on the Channel Islands model, the Pod Mod.

*IMPACT PROTECTION MESH IS 2/3's DECK

X-LITE RANGE

WHITE BLUE

POD MOD

ABC0506007	5'6 x 20 3/8" x 2 1/2"	-	31.3 ltr
ABC0510015	5'10 x 20 7/8" x 2 5/8"	-	35.7 ltr
ABC0602011	6'2 x 21 3/8" x 2 3/4"	-	40.5 ltr

Experienced surfers ride this board 3"- 6" shorter than you are tall.

In 2000 the original Pod rapidly became a global favorite, allowing surfers to drop six inches off their shortboards and revolutionize punting.

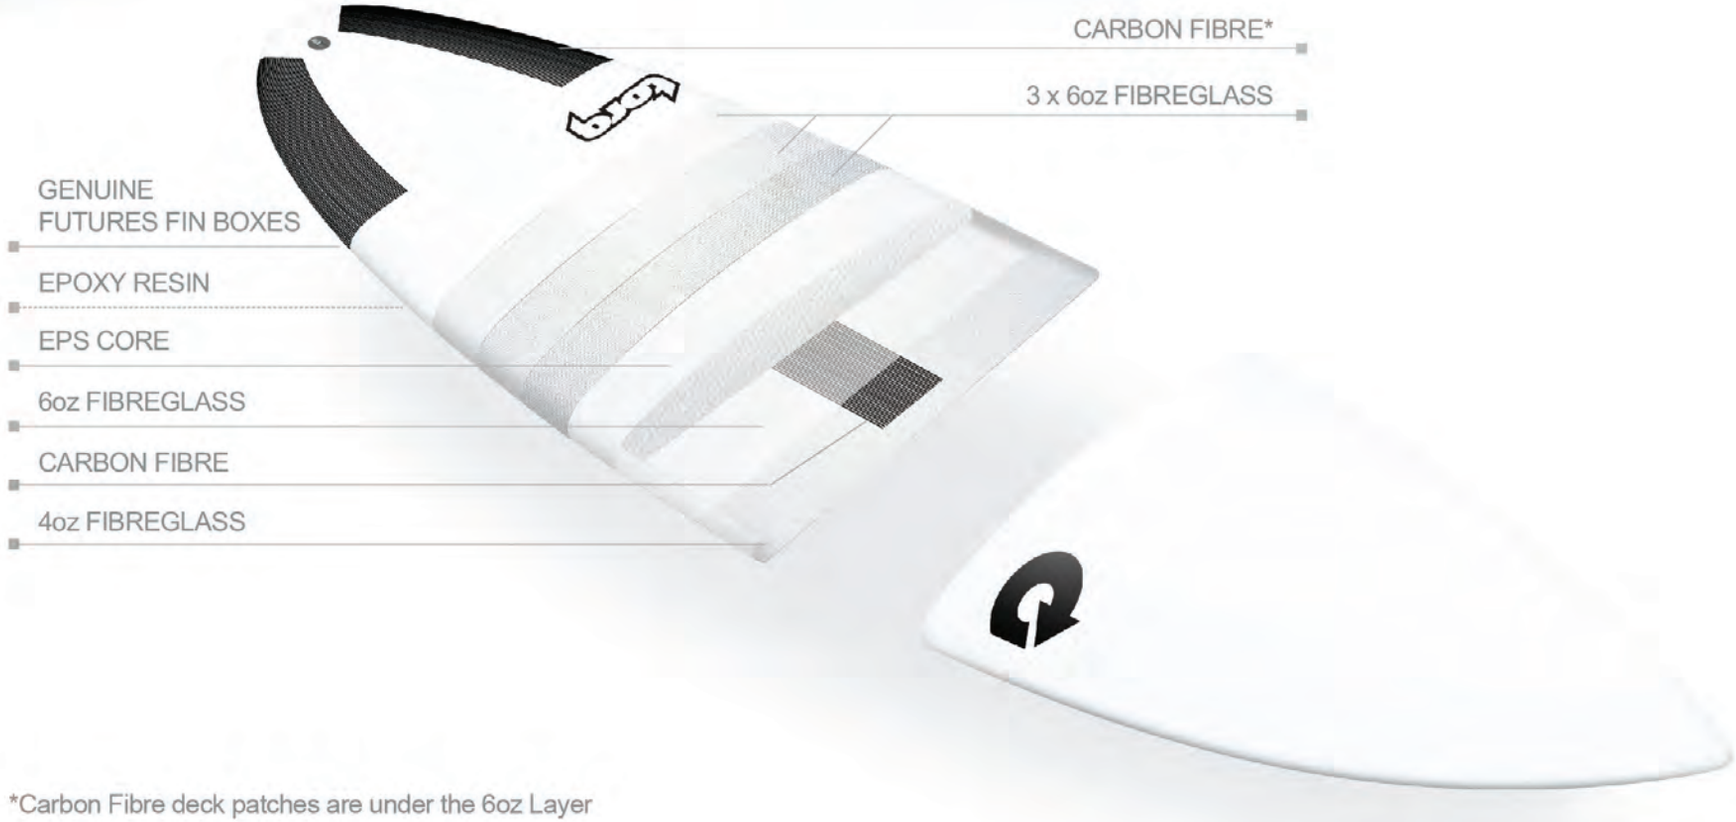

The Pod Mod design is a heavily modified Pod, designed to be ridden even shorter and wider than the original, catering to the surfer that wants a little more volume forward to catch waves but doesn't want to sacrifice performance. The tail has been widened for small wave glide, and the original single to double concave has been replaced with a flat entry to concave vee for quick rail to rail transitions.

CUTTING EDGE TECHNO -LOGY

TEC - TORQ EPOXY COMPOSITE

Torq TEC; Torq Epoxy Composite offers our user friendly performance shapes in our most advanced epoxy lay-up to date. Using a mix of plain weave fibres and Carbon, these boards offer the best strength to weight ratio on the market.

*Carbon Fibre deck patches are under the 6oz Layer

TET
TORQ EPOXY TECHNOLOGY

TORQ EPOXY TECHNOLOGY

Torq surfboards represent a revolution in Epoxy surfboard technology. Built using the latest in EPS/Epoxy materials; the torq technology combines a lightweight EPS core with Biaxial fibreglass cloth, Epoxy resin and our unique Shield Skin

The high tech torq composite is constructed in the most advanced molds on the planet – precision CNC cut from a single aluminium block – creating the most perfect reproduction every time.

Our unique combination of advanced materials and high tech construction creates a board that performs at a high level – offering lightweight shapes with responsive flex – but also offers extraordinary durability and strength; ensuring your new torq surfboard will keep you stoked from your first wave to your last.

Torq TET surfboards all come with fins. The ModFish comes with 5 fin boxes for either Quad or Thruster set up and supplied with a Thruster fin set as standard. The ModFun and Mini-Long shapes come with 3 fin boxes and a Thruster fin set offering an even balance of drive and release for all round surfing. The Torq Longboard comes with a 2+1 set up, offering all round performance with the option of single fin only.

With a shape that's more today than yesterday, our modern "fish" design is built for speed. Excelling in chest to overhead high waves, it performs on those hollow, glassy days, yet enjoys mushy, sloppy and less than perfect conditions too. The wide template also suits heavier surfers looking for a performance feel.

Comprised of a full nose and wide mid, with clean balanced curves that blend into a swallow tail. The bottom contours through single to double concave with a lightly flipped nose. Tune to your taste with Tri-Quad option.

The Torq MOD FISH is also available in

6'3 x 20 1/2" x 2 1/2"
6'6" x 21" x 2 5/8"

This crossover range caters to all levels of surfers in virtually every condition. From waist high mush to overhead and hollow. The versatility of the Mod Fun makes them an excellent choice if you need one board to handle all the conditions where you live and travel.

Featuring a medium full nose and shallow mid-entry there is enough volume for smaller days and weaker surf. As the surf jumps up, step back and the board transforms. You'll find a board that feels shorter than it's length, delivering predictable handling and performance. Tri-fin set-up.

The Torq MOD FUN is also available in

Appealing to those who are looking for more volume and better glide than a funboard, but aren't interested in a full-size longboard. Great performance in thigh-high to slightly over head-high waves, this board is a tremendous wave catcher.

A low entry rocker gets you moving and provides the glide needed on smaller, weaker days. We packaged just enough tail rocker to allow it to perform in quick beach breaks or as the surf increases.

Also available; the Torq LONGBOARD

SOFT DECK SURFBOARDS

Torq Soft Deck surfboards continue the torq revolution in Epoxy surfboard technology. Built using the latest in EPS/Epoxy materials; the torq soft technology combines a lightweight EPS core with Biaxial fibreglass cloth, Epoxy resin and a layer of extruded PE Foam.

The high tech torq composite is constructed in the most advanced molds on the planet creating the most perfect reproduction every time.

Our unique combination of advanced materials, high tech construction and integrated Futures fin boxes creates a board that is both light and extraordinarily strong and durable; ensuring your new torq surfboard will keep you stoked from your first wave to your last.

Torq Soft Deck surfboards are all supplied with safe semi-soft fins based on the standard hard fin sets. The ModFish comes with 5 fin boxes for either Quad or Thruster set up and supplied with a Thruster fin set as standard. The ModFun and Mini-Long shapes come with 3 fin boxes and a Thruster fin set. The Torq Longboard comes with a 2+1 set up, offering the option of single fin only.
